2 Test scripts

In some tests were used more spaces between tokens for really extreme testing, but these spaces are not shown in inputs presented in this paper because of well formatting. Input files with more spaces are submitted to BlackBoard.

2.1 Test1

2.1.1 Input

- Jaime Nino jaime@cs.uno.edu, jnino@uno.edu, ninosalcedo.jaime@gmail.com
- ² Curry Haskell cHaskell@functional.com, haskell.curry@gmail.com

2.1.2 Output

2.2 Test2

2.2.1 Input
